Product Description

SUDOTACK SP-70 multi-functional Karaoke machine system includes handheld wireless microphones and a 6.5-inch HD speaker whose amplifying distance reaches 49ft/15m. The powerful TWS function allows you to pair two SUDOTACK SP-70 systems for stereo effect. There are independent control buttons for microphone volume, reverb, colorful RGB lights on/off, etc. Functions such as built-in 87.5-108MHz radio, Aux-in, TF slot, and USB Flash Drive port offer various playback options to play MP3, WAV or other audio formats. You can also know the working status via clear digital display. SUDOTACK SP-70 portable Karaoke system is medium-sized and has a fashionable looking. The high-voltage system ensures enough volume boost, and the internal large-capacity rechargeable lithium-ion battery guarantees long working hours. The system is ideal for family party, outdoor performance, teaching, etc.

Features

- TWS connection mode:
How to enable the TWS connection function?
1. Turn on two speakers at the same time.
2. Double-click the "Play/Loop" button on either speaker.
3. Wait for the two machines to pair up.
4. Turn on your phone's Bluetooth function and select either speaker to connect.
5. After the successful Bluetooth connection, the two speakers can play a piece of music at the same time.
Attention: Do not operate both speakers simultaneously.
Disconnect TWS: Long press the "Play/Loop" button, long press once to exit TWS mode, and long press again to disconnect Bluetooth.
Bluetooth Connection: Short-press the "Mode/LED" button on the karaoke machine to switch to Bluetooth mode. Then go to phone Settings>Bluetooth. Find and tap "SP-70 Wireless Karaoke System" and wait for the connection to be successful.
Bluetooth Disconnect: Long press the "Play/Loop" button to disconnect Bluetooth. You will need to reconnect next time you use it.
